Rosary High School For Girls Dedicated Sunday by Bishop

The San Diego diocese's newest high school for girls, Rosary High school, was dedicated last Sunday afternoon, October 3, by His Excellency the Most Reverend Bishop. The Rev. John Desmond served as master of ceremonies, and the Most Reverend Ordinary was assisted by the Rev. John Daly, SC, and the Rev. Stanley E. Ross, CR, as chaplains.

Students Sing

Rosary high students sang for the dedication ceremonies, which took place after a procession from Our Lady of the Sacred Heart church in which parish the new school is located.

The street in front of the school had been blocked off by the Police Department to enable the crowds attending to witness the ceremonies which began with the blessing of the flag. The school band played during the raising of the flag by a guard of honor from the Naval Training Station.

The Most Reverend Bishop then blessed the crucifixes to be hung

Rosary High School For Girls Will Open On September 13

New Rosary High school, located in Our Lady of the Sacred Heart parish on the corner of 42nd street and Polk avenue, will be completed for the fall session beginning Sept. 13.

On the opening registration date, Aug. 15, many students sought enrollment. Registrations will continue every day from 9 a.m. until 4 p.m. at Sacred Heart Grammar school.

The faculty, composed of the Sisters of Saint Joseph of Orange, will offer high school girls of the 9th, 10th and 11th grades a wide choice of subjects. All students are being counseled toward an academic, economic, homemaking, or pre-nursing course, according to each girl's future plans and capabilities. Two of the three special departments will be functioning this year—commercial and homemaking; the pre-nursing courses will be introduced next year when the 12th grade will be added to the curriculum.

The building itself is so constructed as to meet with the newest ideas of a modernly-equipped secondary school. The auditorium is arranged so that it also serves as a gymnasium, and over the shower room and clinic offices is a glass-enclosed sun porch. The home economics and commercial departments are located on the second floor with the biology and chemistry laboratory and a study hall library having a seating capacity of 40 students.
